

ImmunePRO PLUS

FOR HEALTHCARE PRACTITIONERS ONLY

Traditional Herbal Medicine

Immune support & maintenance

Specifically formulated using a combination of evidence-based nutrients & traditionally used herbs for supporting healthy immune resilience.

AUST L 287643

Pack size: 60 Film Coated Tablets

ImmunePRO PLUS contains herbs traditionally used in Chinese and Western herbal medicine:

- ✓ Contains nutrients, important for the health and function of the immune system
- ✓ Contains herbs, which are used in Traditional Chinese Medicine (TCM), as supportive therapy in the management of mild upper respiratory tract infections.

A unique combination of traditionally used natural ingredients:

Astragalus is used in Traditional Chinese Medicine (TCM) as supportive therapy in the management of mild upper respiratory tract infections, as an immune system tonic, to tonify the lungs and is also used in herbal medicine as a tonic to support energy levels.

Shiitake mushroom is a source of antioxidants and is traditionally used in herbal medicine to support healthy immune system function. Shiitake is a source of polysaccharides with immune-modulating properties.

Andrographis is traditionally used in herbal medicine to support the health and function of the immune system and as a tonic during times of minor convalescence. It is also traditionally used in Ayurvedic Medicine as a supportive therapy in the management of mild upper respiratory tract infections.

Olive leaf contains the active constituent oleuropein - an antioxidant. Antioxidants act as free-radical scavengers in the body.

Zinc is important to support & maintain normal healthy immune function.

Vitamin C plays a vital role in many immune mechanisms in the body and supports healthy functioning of the immune system.

Each **ImmunePRO PLUS** tablet contains:

Astragalus membranaceus root dry extract	175mg
derived from dry root	3.5g
Lentinula edodes (Shiitake mushroom) fruiting body dry extract	320mg
derived from dry fruiting body	3.2g
Andrographis paniculata leaf dry extract	150mg
derived from dry leaf	1.5g
Olea europaea leaf dry extract	200mg
derived from dry leaf	3.5g
Zinc citrate dihydrate	32.8mg
Equiv. Zinc	10mg
Ascorbic acid	250mg

Directions for use:

Adults: Take 1-2 tablets daily, with food, or as directed by your healthcare professional. If symptoms persist consult your healthcare professional.

FREE FROM dairy, gluten, salt, yeasts, wheat, soy, preservatives, and artificial colours and flavours. Vegan friendly formula. Does not contain SLS or magnesium stearate.

ProBiome

PROBIOTICS

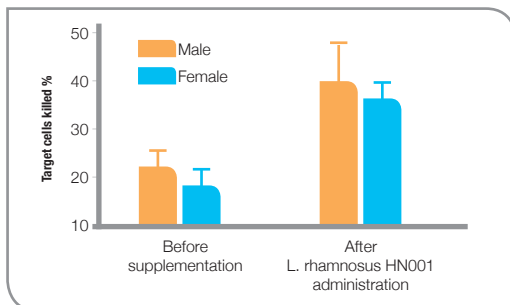

Contains probiotic strains which support the health & function of the immune system

FOR HEALTHCARE PRACTITIONERS ONLY

- ✓ Help maintain healthy gut microflora
- ✓ Support the health and function of the immune system
- ✓ May assist with maintaining the balance of the friendly bacteria following antibiotic therapy.

Support the health and function of the immune system

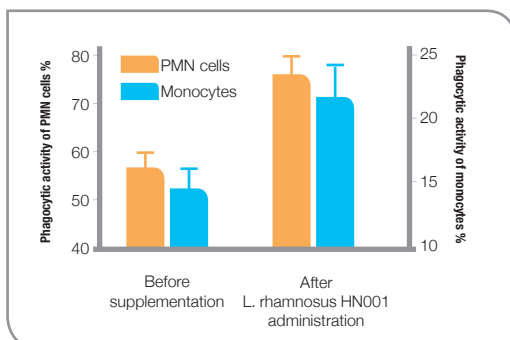

L. rhamnosus HN001 supports Natural Killer Cell (NK) activity

Supplementation with Lr-HN001 enhanced the activity of peripheral blood natural killer (NK) cells in healthy elderly male and female subjects, after 3 weeks.

This indicates that consumption of Lr-HN001 can enhance an important cellular immune function.

Gill, H. S., K. J. Rutherford, and M. L. Cross. (2001). Dietary probiotic supplementation enhances natural killer cell activity in the elderly: an investigation of age-related immunological changes. *J. Clin. Immunol.* 21:264-271.

L. rhamnosus HN001 supports phagocytic activity of immune cells

Immune function was assessed by measuring blood leukocyte phagocytosis in immune cells (polymorphonuclear and mononuclear phagocytes) in vitro. The activity levels of both types of phagocytes were significantly increased by consumption of the probiotic strain Lr-HN001.

These results suggest that Lr-HN001 is able to enhance activity of immune cells in humans and offers an effective means of improving immune support in a controlled manner.

Gill HS, Rutherford KJ (2001). Probiotic supplementation to enhance natural immunity in the elderly; Effect of a newly characterized immunostimulatory strain *Lactobacillus rhamnosus* HN001 on leucocyte phagocytosis. *Nutrition Research*;21:183-190

FREE FROM dairy, gluten, salt, yeasts, wheat, soy, preservatives, and artificial colours and flavours. Vegan friendly formula. Safe for expectant mothers, children and infants under 6 months of age to take.

ProBiome PLUS (D-lactate free) vegetable capsule contains 45 Billion CFU:
 Lactobacillus rhamnosus (HN001) 20 billion CFU
 Lactobacillus casei (Lc-11) 15 billion CFU
 Lactobacillus salivarius (Ls-33) 10 billion CFU

Dosage:

Adults: Take 1 capsule with food, once or twice daily, or as directed by your healthcare professional.

ProBiome Powder (D-lactate free) contains 10 billion CFU per gram (approximately 1/2 metric teaspoon). **Each 1.0 gram contains:**

Lactobacillus rhamnosus (HN001)	6 billion CFU
Lactobacillus casei (Lc-11)	2 billion CFU
Lactobacillus salivarius ssp. salivarius (Ls-33)	2 billion CFU

Dosage:

Adults: Take 2g (1 metric teaspoon) once or twice daily, or as directed by your healthcare professional.
Children aged 6 months - 12 years: Take 1g (1/2 metric teaspoon) once or twice daily.
Infants under 6 months: Take 1g (1/2 of a metric teaspoon) once daily.
