## Cardiovascular and Nervous System Support

A clinic-essential formula combining bioavailable forms of magnesium and high-dose taurine, along with zinc, glutamine, vitamin C and the full spectrum of activated B vitamins. In a first for Australian practitioners, this highly versatile magnesium formulation includes both L-5-methyltetrahydrofolate and folinic acid, and methylcobalamin and hydroxocobalamin. It contains Metafolin®, the scientifically validated form of L-5-methyltetrahydrofolate calcium (L-5-MTHF-Ca).

The low-exipient formula provides foundation nutrients to aid neurotransmitter synthesis, support energy production and the healthy function of the cardiovascular, nervous and immune systems.
